### About Moolec Science SA

Moolec is a science-based ingredient company leader in the use of Molecular Farming technology for the food and dietary supplementation markets. The Company’s mission is to create unique food ingredients by engineering plants with animal protein genes. Its purpose is to redefine the way the world produces animal proteins for the good of the planet. Moolec’s technological approach aims to have the cost structure of plant-based solutions with the nutrition and functionality of animal-based ones. The Company’s technology has been under development for more than a decade and is known for pioneering the production of a bovine protein in a crop for the food industry. Moolec’s product portfolio and pipeline leverages the agronomic efficiency of broadly used target crops, like soybean, pea, and safflower to produce oils and proteins. The Company has an industrial and commercial R&D capability to complement their Molecular Farming technology and secures a growing international patent portfolio (25+, both granted and pending) for its technology. Moolec is run by a diverse team of Ph.Ds and Food Insiders, and operates in the United States, Europe, and South America.
